Úvodné slovo

Foreword

Aj naďalej chceme byť voľbou číslo jedna pre výrobcov, dovozcov a predajcov elektrozariadení pri plnení odpadových povinností.

We want to continue to be number one choice for producers, importers, and sellers of EEE in terms of waste obligations fulfilment.

Veľmi ma teší, že v roku 2021 narástol počet nových spokojných klientov, ale aj vyzbierané množstvá odpadov vo všetkých komoditách. V priebehu uplynulého roka sme rozšírili klient-sku základňu o 75 výrobcov elektrozariadení a ďalších klientov pre batérie a obaly, ktorí sa rozhodli využívať naše služby. Medziročný nárast v zbere elektroodpadu predstavoval 37 % a v komodite batérie takmer 25 %. Napriek nepriaznivej epidemiologickej situácii sme ďalej pokračovali v environmentálnom vzdelávaní detí a mládeže. Spolupracovali sme so 645 školami a škôlkami, z ktorých viac ako 36 tisíc žiakov a študentov získalo informácie o dôležitosti triedenia a recyklácie odpadov.

Minulý rok sa niesol v znamení výziev nielen v legislatívnej oblasti, ale aj zmien súvisiacich s pracovnými návykmi a činnosťami, ktoré sme prispôbovali aktuálnej pandemickej situácii. Tie sa prejavili v zavádzaní interných smart riešení v podobe digitalizácie niektorých pracovných postupov, aby sme boli schopní efektívne a bez obmedzení zabezpečovať servis pre našich klientov.

Zodpovedne prehlasujeme, že aj za minulý rok, rovnako ako za tie predošlé, sme naplnili naše poslanie a splnili všetky legislatívne povinnosti za našich klientov v oblasti cieľov zberu a recyklácie pre všetky komodity.

Aj naďalej chceme byť voľbou číslo jedna pre výrobcov, dovozcov a predajcov elektrozariadení pri plnení odpadových povinností, pre firmy, školy, inštitúcie, obce a mestá, pri likvidácii použitého elektra a batérií, a tiež pre školy a škôlky v environmentálnom vzdelávaní, ktoré zmení pohľad budúcich generácií na ochranu životného prostredia.

Všetkým našim klientom, partnerom a kolegom ďakujem za tímovú prácu, ktorá je predpokladom pre úspechy, ktoré dosahujeme už viac ako 16 rokov. Verím, že aj nastávajúci rok bude pre nás všetkých úspešný.

I am very pleased that the numbers of new satisfied clients were growing in 2021, same as the amount of waste collected in all commodities. Over the last year, we extended our client base by 75 EEE producers and other clients in the area of batteries and packaging, who decided to use our services. The year-on-year increase was 37% in WEEE collection and almost 25% in waste batteries collection. Despite the unfavourable epidemiological situation, we continued with our environmental education of children and youth. We cooperated with 645 schools and kindergarten, and more than 36 thousand pupils and students acquired information about the importance of waste separation and recycling.

Last year was marked by many challenges not only in the legislative area, but also by a lot of changes to our working habits and activities, which had to be adapted to the current epidemiological situation. These changes were manifested in the introduction of internal smart solutions in the form of digitalisation of some working procedures so that we could provide efficient and free of limitations services to our clients.

We can responsibly declare that, similarly to previous years, also last year we achieved our mission and fulfilled on behalf of our clients all legislative obligations in collection and recycling targets for all the commodities.

We want to continue to be number one choice for producers, importers, and sellers of EEE in terms of waste obligations fulfilment; for companies, schools, institutions, municipalities, and towns in terms of WEEE and waste batteries disposal; as well as for schools and kindergartens in terms of environmental education that can change the way of how the future generations will perceive the environment protection.

I hereby would like to express my thanks to all our clients and partners, as well as to our colleagues for their teamwork, which is an important factor for the success we have been attaining for more than 16 years. I do believe that the coming year is going to be a successful year for all of us.

ČO PRINIESOL ROK 2021

Most Significant Events in

2021

Od januára 2021 mali všetky obce Slovenska povinnosť zaviesť a zabezpečiť vykonávanie triedeného zberu komunálneho odpadu pre biologicky rozložiteľný odpad. Výnimku má len Bratislava a Košice, kde sa odpad energeticky zhodnocuje.

Since January 2021, all Slovak municipalities have been obliged to implement and ensure separate collection of communal waste for biodegradable waste. Only Bratislava and Košice are exempted; they use waste for energy recovery.

12. septembra 2021 sme oslávili 30. rokov od prvého hovoru uskutočneného v mobilnej sieti na území Československa, a to medzi Dagmar Burešovou a Františkom Mikloškom.

On 12 September 2021, we celebrated 30th anniversary of the first call made in the mobile network in the territory of Czechoslovakia. The call took place between Dagmar Burešová and František Mikloško.

V roku 2021 sa na celom svete predalo 341 miliónov počítačov, z čoho bolo 275 miliónov notebookov a 66 miliónov stolových počítačov.

In 2021, 341 million computers were sold globally, of that 275 million notebooks and 66 million desktop computers.

Až z 1 245 firiem, inštitúcií a škôl sme v priebehu roka odviezli na ekologickú recykláciu elektroodpad a použité batérie.

Throughout the year, we collected WEEE and waste batteries from as many as 1,245 companies, institutions and schools and transported the collected waste for ecological recycling.

Od marca 2021 sa zaviedli nové energetické štítky pre vybrané spotrebiče (práčky, sušičky, umývačky, TV a PC monitory, chladničky a mrazničky, vinotéky a chladničky na nápoje). Nová stupnica sa skladá z písmen A, B, C, D, E, F, G, pričom energetická trieda A je najúspornejšia.

In March 2021, new energy labels for selected appliances (washing machines, dryers, dishwashers, TVs and PC monitors, refrigerators and freezers, wine and beverage coolers) were introduced. The new scale includes the letters A, B, C, D, E, F, and G; the A energy class is the most energy efficient.

Od septembra 2021 sa začalo s výmenou energetických štítkov aj pri svetelných zdrojoch (žiarovky, žiarivky, LED žiarovky, žiarivkové trubice a pod.). Výmena štítkov v tejto kategórii bude prebiehať až do konca februára 2023.

Since September 2021, the replacement of energy labels for lamps has started (incandescent lamps, fluorescent lamps, LED bulbs, fluorescent tubes, etc.). The replacement of energy labels in this category will run until the end of February 2023.

V roku 2021 sa celosvetovo predalo 1,54 miliárd smartfónov. Kým v roku 2016 vlastnila mobilné zariadenie len polovica svetovej populácie, na konci roka 2020 to bolo viac ako 78 % svetovej populácie.

In 2021, 1.54 billion smartphones were sold worldwide. While in 2016 only a half of worldwide population owned a mobile device, it was more than 78% of the world population at the end of the year 2020.

Independent Auditor's Report

To the Shareholders, Supervisory Board and Board of Directors of SEWA, a. s.:

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of SEWA, a. s. ("the Company"), which comprise the balance sheet as at 31 December 2021, the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements of the Company give a true and fair view of the financial position of the Company as at 31 December 2021, and of its financial performance for the year then ended in accordance with the Act on Accounting No 431/2002 Coll., as amended by later legislation ("the Act on Accounting").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Act on Statutory Audit No 423/2015 Coll. and on amendments to the Act on Accounting No 431/2002 Coll., as amended by later legislation ("the Act on Statutory Audit") related to ethics, including Auditor's Code of Ethics, that are relevant to our audit of the financial statements, and we have fulfilled other requirements of these provisions related to ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Matter

The financial statements of SEWA, a. s. for the year ended 31 December 2020 were audited by another auditor whose report dated 14 May 2021 expressed an unmodified opinion on those statements.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements that give true and fair view in accordance with the Act on Accounting, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an

THIS IS A TRANSLATION OF THE ORIGINAL SLOVAK REPORT

Správa audítora

Auditor's Report

audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements including the presented information as well as whether the financial statements captures the underlying transactions and events in a manner that leads to their fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Report on Information Disclosed in the Annual Report

Management is responsible for the information disclosed in the annual report, prepared based on requirements of the Act on Accounting. Our opinion on the financial statements expressed above does not apply to other information contained in the annual report.

In connection with audit of the financial statements it is our responsibility to understand the information disclosed in the annual report and to consider whether such information is not materially inconsistent with audited financial statements or our knowledge obtained in the audit of the financial statements, or otherwise appears to be materially misstated.

We considered whether the Company's annual report contains information, disclosure of which is required by the Act on Accounting.

THIS IS A TRANSLATION OF THE ORIGINAL SLOVAK REPORT

Správa audítora

Auditor's Report

Based on procedures performed during the audit of financial statements, in our opinion:

- Information disclosed in the annual report prepared for 2021 is consistent with the financial statements for the relevant year,
- The annual report contains information based on the Act on Accounting.

Additionally, based on our understanding of the Company and its situation, obtained in the audit of the financial statements, we are required to disclose whether material misstatements were identified in the annual report, which we received prior to the date of issue of this auditor's report. In this regard, there are no findings which we should disclose.
